- ▶ Logo/Business Card/I.D Card
- ▶ Certificate
- ▶ Corporate Presentation
- ▶ Animation Video/Motion Graphic
- ▶ Invitation Card/Birthday Card

## PROCESS OF MY DESIGN

---

### PHASE I: RESEARCH

Before any actual creative work begins, I conducts extensive background research. I will meet with you to understand your goals, audience needs and project expectations. In addition, I will conduct market, customer and competitive research to gather additional insight. Once our research is complete, we will provide a creative brief to summarize the results of our inquiries and outline the project, along with a detailed project schedule to ensure on-time delivery.

### PHASE II: DESIGN

When my analysis is complete and you are on board with the initial concepts, design work begins. I keep your communication needs and priorities at the core of every design decision – from colors to image selection to font styles. Typically, I explore several different creative approaches before centering in on my main creative ideas. Based on your feedback, we evolve these creative approaches into comprehensive design directions. As part of this process, I will deliver at least three creative concepts for your evaluation.

### PHASE III: IMPLEMENTATION

After you select your preferred creative direction, I begin design execution. I work with you to select images and gather copies for the final design pieces. I produce draft outputs for your review and make sure that your input is reflected before any piece goes into production. When your quality standards (and mine) are achieved, I prepare your design pieces for final production. I collaborate closely with any third-party vendors (such as printers) to make sure that the finished product meets your expectations.

### PHASE IV: EVALUATION

After the design is complete, I follow up with you to assess the outcome of the project. I keen to hear not only your insights on my process and designs, but also any feedback you have received from your audiences. If desired, I can work with you to design

## WHY I AM QUALIFIED

---

I am a creative graphics designer who can work under pressure and love to contribute to the development of the organization I work with. I am equipped with some other special skills such as motion graphics, web design and mobile application which makes me more qualify to work with your organization. Ready to work and provide a quick
